incorporated into the originally filed disclosure of the present application. There is continuity of inventorship between the '561 application and the present application which both name George L. Matlock as a common inventor. Requirements for this Petition are satisfied as follows:

- (1) The above-referenced patent application is currently pending.
- (2) The reference required by 35 U.S.C. § 120 to the non-provisional application is provided in the form of a supplemental application data sheet submitted herewith. The reference to the domestic priority information has also been made to the first paragraph of the specification in an amendment filed concurrently herewith.
- (3) In connection with this Petition, Applicants hereby authorize the Commissioner for Patents to charge any and all fees required under 37 C.F.R. § 1.17(t) to Deposit Account No. 20-1430.
- (4) The entire delay between the date the claim was due under 37 C.F.R. § 1.78(a)(2)(ii) and the date the claim was filed was unintentional.

In view of the foregoing, Applicants request that this Petition be granted and a Corrected Filing Receipt be issued denoting the correct domestic priority data as set forth above in this Petition and accompanying amendment. If it is believed that a telephone conference would expedite processing of this Petition, please telephone the undersigned at 415-576-0200.

Respectfully submitted,
